WHO ARE ROLEC CARAVAN HOOK-UPS?

Rolec Caravan Hook-Ups is firmly recognised as the UK's leading specialist in the design, supply and installation of electrical hook-ups, electrical distribution systems and park lighting to the caravan, holiday home and residential park industries.

“ Our values are Quality, Reliability, Innovation and Customer Care ”

SERVING THE LEISURE INDUSTRY SINCE 1990

Rolec operates a dedicated team of experienced design and installation engineers, able to assist with every stage of project delivery.

Rolec have been designing and manufacturing hook-up and distribution equipment for over 30 years and understand the unique requirements of the caravan and residential park industries, including:

- Hard-wearing, long-life products
- Timely delivery of products
- Regulatory compliance of products
- Efficient electrical design service
- Installation management/advice/support service
- Aftersales support service
- Instant availability of spare and replacement parts

THE ROLEC SERVICE

Rolec provides a variety of crucial electrical services for caravan, holiday home and residential parks.

An award winning company, Rolec remains committed to a programme of continuous development, investment and innovation to ensure the provision of high quality and reliable products at competitive prices for the Leisure industry.

SERVICES INCLUDE:

- Park electrical system surveys
- Electrical hook-up/lighting system design
- Electrical hook-up smart systems (remote meter reading and invoicing)
- Turnkey installation service (optional)
- Support service to your own contractor/installation staff
- Electrical testing/certification
- Maintenance contract services
- Emergency response services
- Electric vehicle charge point advice/supply/install (optional)
- Insurance claims assessment/advice
- Park pre-purchase survey/assessment
- Design/calculations/CAD drawings
- Park deployed emergency services advice, i.e.
- Fire extinguishers
- Lifebuoys
- First aid kits

Local Service with Nationwide Corporate Resources

For over 30 years, Rolec engineers have travelled the length and breadth of the UK undertaking the installation of electrical hook-up, distribution and lighting systems – as well as electrical testing and support services to the caravan and residential park industries.

PROVIDING CORPORATE SERVICES AT LOCAL RATES

In order to accommodate the changing demands of the caravan and residential park industries, Rolec has introduced a concept called **ParkSERV**.

ParkSERV is a nationwide network of Rolec trained, Rolec supported, and Rolec managed electrical contractors, able to provide a host of corporate services at local rates, including:

- Free of charge site surveys
- No obligation quotations based on local rates
- Installation work by local engineers
- Rapid response callout service by local engineers
- Local aftersales support
- Electrical testing at local rates
- Locally stocked spare and replacement parts
- Local relationships

All these services are now available based on local rates, with the added confidence that the UK's leading hook-up specialist/manufacturer – Rolec – is providing a nationwide **ParkSERV** managed umbrella that includes:

- Direct to the park electrical designs
- Electrical design support and advice to the local contractor
- Immediate access to the UK's largest and most comprehensive range of electrical hook-up, metering, distribution and lighting systems
- Timely product deliveries
- Product compliance and regulatory management
- General advice and support
- Project management and site meeting attendance
- Continual **ParkSERV** local contractor training
- Continual **ParkSERV** local contractor performance reviews

ParkSERV provides you with cost-effective and affordable corporate services

YOUR PARK DEVELOPMENT JOURNEY WITH ROLEC

YOU'RE IN SAFE HANDS

With Rolec you are choosing a partner with over 30 years of design, manufacture and installation experience in the caravan park electrical hook-up industry.

ADVICE AND SUPPORT

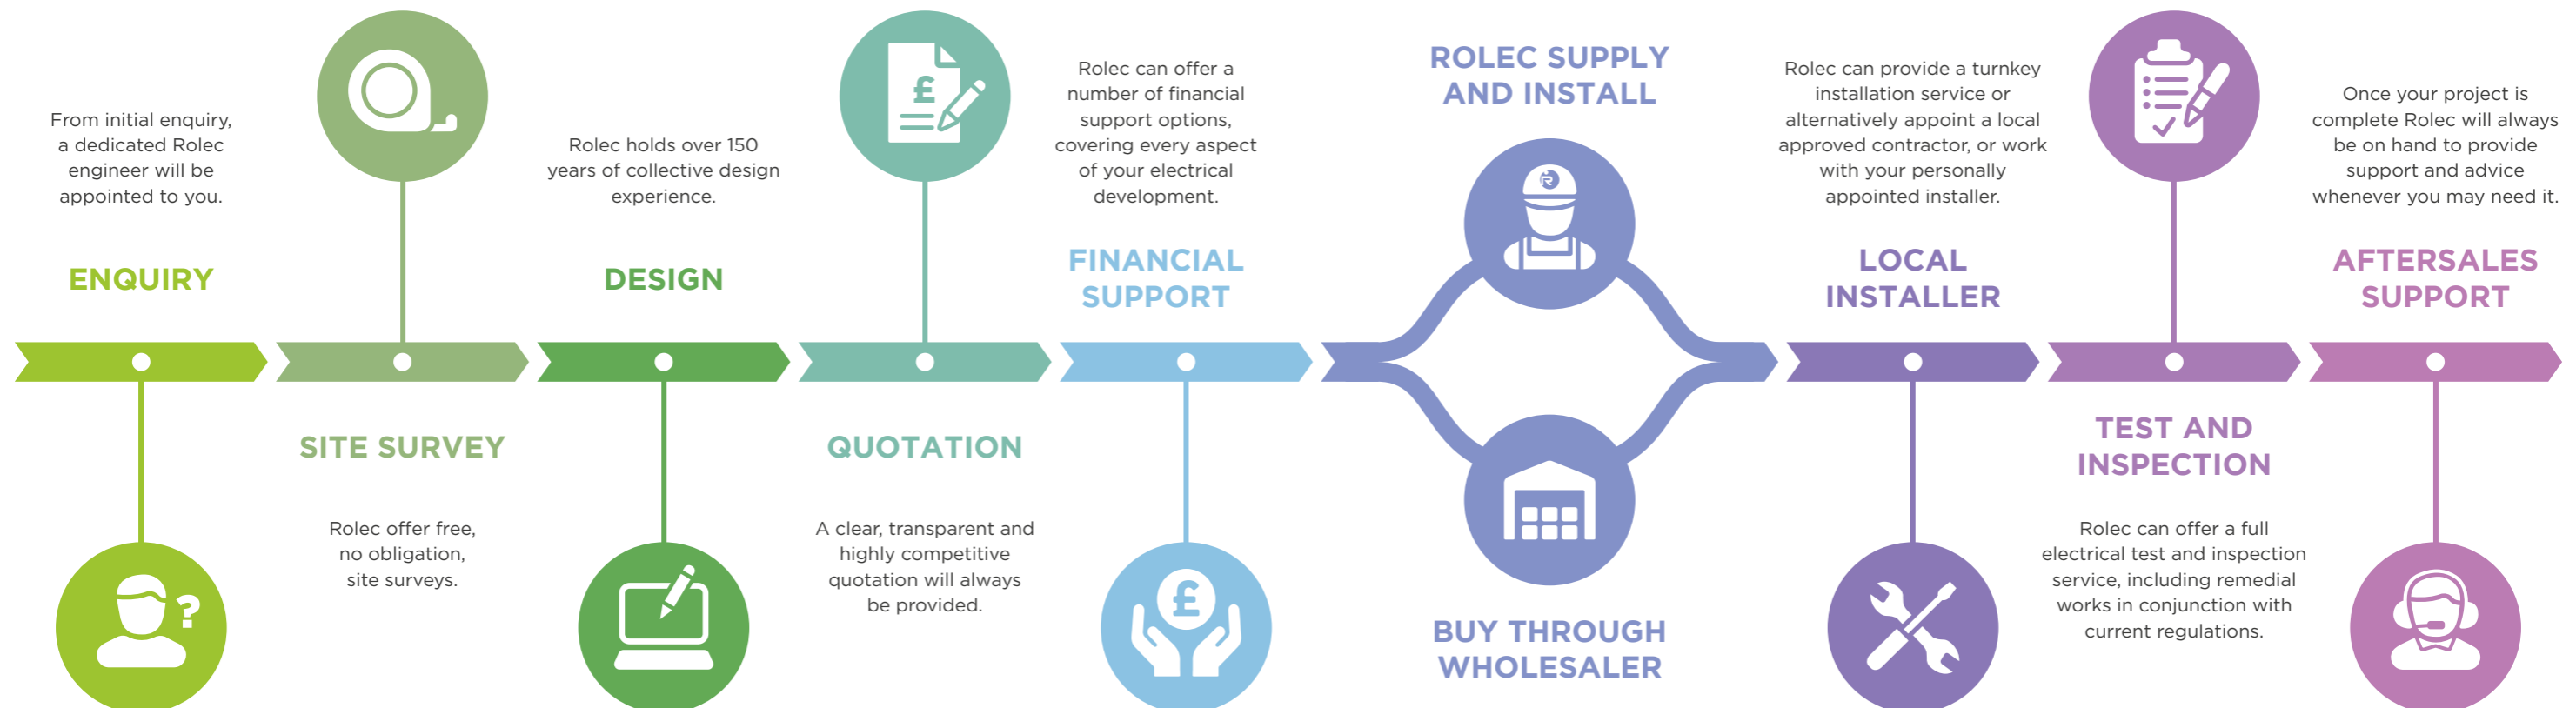

A dedicated Rolec engineer will be assigned to your project, providing you with advice and support throughout.

WORKING WITH LOCAL INSTALLERS

Rolec can provide a turnkey installation service or alternatively appoint a local approved contractor, or work with your personally appointed installer.

PEACE OF MIND

By choosing Rolec you will be working with the UK's largest electrical hook-up specialist, supported by the largest stock levels and buying power in the industry.

“Rolec have been providing cost-effective electrical hook-up solutions for the caravan and holiday park industry for over 30 years”

THE ROLEC PRODUCT RANGE

With the most diverse range of electrical distribution, electrical metering and lighting products in the UK specially designed for use on caravan and residential parks, Rolec has a solution for every budget and location.

PRODUCTS INCLUDES:

- Static caravan hook-up units
- Touring caravan hook-up units
- Touring caravan hook-up pedestals
- Residential park hook-up units
- Electric vehicle charging points
- MID certified kWh credit meters
- MID certified kWh smartcard meters
- MID certified computer managed kWh metering and auto-invoicing
- Computer managed water metering and auto-invoicing
- Computer managed gas metering and auto-invoicing
- Park lighting (high and low level)
- Electrical mains/distribution panels
- Hook-up emergency/maintenance support packs
- Park deployed emergency services

SUITABLE FOR:

- Static caravans
- Holiday parks
- Camping sites
- Glamping sites

OPTIONAL EXTRAS:

- Galvanised mounting post
- Bulkhead lighting kit
- Photocell
- MID kWh mini-meters
- Smartcard metering

STATIC HOOK-UP CONNECTION UNITS

Offering a wide range of static electric hook-up units, our cost effective products for your destination are designed, manufactured and supplied to provide long-lasting and durable solutions.

Rolec's static electric hook-up units range includes direct connection units and hook-up connection units, making the ideal choice for all campsites, caravan parks, holiday homes and residential parks.

A SELECTION OF STATIC HOOK-UP FEATURES

- Available in 1 and 2way versions with 6A, 16A, 10A and 32A IP44 sockets
- Built-in overload and 30mA fault current protection
- IP44/55 weatherproof thermoplastic enclosure
- Built-in cable terminals
- MID approved kWh metering and pre-paid smart metering solutions
